Coding Threats. Decoding Solutions.

FMCG, FOOD & BEVERAGES CYBERSECURITY

Keep the shelves full.

Plant OT security, distributor portals, supply chain assessments, SOC and resilience for FMCG, food and beverages.

Three questions every FMCG and food leader should answer

If ERP went dark tonight, could distributors be served this week?

Mapping what orders, labels and dispatch depend on, and testing backups, decides whether ransomware costs a day or a quarter of shelf space.

Could a distributor or insider inflate claims unnoticed?

Trade schemes move large sums through portals and apps; authorisation testing and analytics stop silent leakage.

Who can reach our plant lines and cold rooms from outside?

OEM links, IoT gateways and 3PL integrations are the most common unmonitored paths into plant and cold-chain systems.

US$11 m
Ransom JBS paid in 2021

US$49 m
Clorox's 2023 cyberattack costs

~25%
Of world milk produced in India

6 hours
Incident reporting to CERT-In

Built for every consumer goods company

Consumer goods groups · food processors · beverage companies · dairies and cooperatives · cold-chain and warehouse operators · distributor networks and channel platforms.

The rules that drive your security calendar

Instrument	Key cybersecurity expectations
CERT-In Directions · audit guidelines (2022, 2025)	6-hour reporting, 180-day logs; independent audits incl. OT
SEBI LODR · DPDP	Quarterly incident disclosure (listed); consumer and loyalty data
Food and consumer statutes	FSSAI records and recalls; Legal Metrology; GST e-invoicing

WHAT WE DO

Plant OT, distributor portals, supply chain, SOC, resilience and consumer data

Plant OT Security
PLC, SCADA, batching and packaging line assessments mapped to IEC 62443.

Distributor Portal Security
DMS, sales app, claims and retailer API testing; scheme change controls.

Supply Chain Assessment
Co-packer, 3PL, cold-storage and agency assessments and contract clauses.

24/7 IT/OT SOC
Plant, depot and cloud monitoring; claims and BEC analytics; 6-hour reporting.

Resilience & Recovery
Dependency mapping, immutable backups, manual dispatch playbooks, exercises.

Consumer Data & DPDP
Loyalty, D2C and CRM data programme; app and API testing; breach workflows.

Choose your starting point

Foundation
IT and plant assessment, backup and dispatch recovery review, email and BEC controls, policy and retailer evidence pack. For single plants, dairies and regional brands.

Assurance
IEC 62443 assessment and segmentation, DMS, app and API testing, annual audit, IT/OT SOC. For multi-plant food and beverage companies.

Continuous Resilience
Continuous OT and application testing, supply chain and cold-chain assurance, SOC with fraud and brand monitoring, DPDP and Board reporting. For listed FMCG groups and national brands.

Why Codec Networks

CERT-In empanelled
for information security auditing services, and empanelled with NICSI for application audit services.

Certified
ISO 9001:2015, ISO/IEC 27001:2022 and ISO/IEC 20000-1:2018.

Regulation-mapped
Every finding mapped to IEC 62443, ISO/IEC 27001, CERT-In and DPDP expectations and your retailers' and insurers' requirements.

One connected partner
Testing, audits, SOC, forensics and privacy linked from finding to closure.

Book a scoping session

Share your plants, systems, distributors, partners and channels. We will propose a practical, production-aware assessment and assurance plan.
